REGISTRATION WINDOW (elongated)

Bridging to Chemistry for Conservation (4 month online bridging course)
Conservation Theory & Skills (2-day orientation, stretched over 3 calendar days, at Institute campus + 9 weeks online)

REGISTRATION WINDOW (elongated)

Bridging to Chemistry for Conservation (4 month online bridging course)
Conservation Theory & Skills (2-day orientation, stretched over 3 calendar days, at Institute campus + 9 weeks online)

The 4-month, distance study course, "Bridging to Chemistry for Conservation", is offered to assist candidates whom are transitioning from the Humanities - or others whom may lack an adequate grounding in Chemistry. For such candidates, completion of this 4-month, on-line course is an entry prerequisite for enrolment into the module "Conservation Theory & Skills". Students wishing to register for the course for their own independent purposes may do so throughout the year.

[Prospectus](#)

"Conservation Theory & Skills" necessarily constitutes the initial, starting module, and successful completion thereof is a prerequisite for enrolment in the introductory modules. The sequence of subsequent modules are somewhat more elective, admitting a measure of choice and preference.
